RE: Paladin Security-Letter of Recommendation

To whom it may concern:

Our firm engaged Paladin Security to provide armed security services at two low-income multifamily communities that we manage. These properties were both situated in statistically high-risk locations for violent crime. Prior to bringing Paladin on board, we had utilized other security companies and off duty police, but the results did not meet our needs. Paladin Security's consultants helped us design a program to reduce the risks from violent crime that was a serious and ongoing issue at both of these two communities.

Paladin Security's highly professional and effective security teams changed facts on the ground in these very difficult and high-risk environments to provide real results. Criminal activity and the associated risks were reduced dramatically in a short amount of time. In addition to the effects of Paladin Security officers presence on site, the documentation that Paladin Security provided our legal team contributed to our successful efforts to remove problem tenants and their invitees that were identified by the security team. Paladin worked with our staff to ensure a coordinated approach to the security program. In our experience managing challenging low-income multifamily properties, no company comes close to Paladin Security in being able to deliver results.

Sincerely,

A handwritten signature in black ink, appearing to read 'JL' or similar initials.
